Project Description: "Youth alternatives" is a project about children environmental education by using art techniques. Project partners are members of business and public institutions.

Our activities are founded on an idea that we can use each constructive process in every day life. In that way this process provides a basis for supply allowing on different situations. That's why we combine art and ecology activities.

Detailed information:

Work: We are going to work with 16 schools in different regions in Sofia. In each school we work with 30 children groups. The children are aged between 10 and 16. The work is flexible and has open content disposition. We need volunteers who love challenges and have creative and innovative thinking. 5 hours per a day except Saturday and Sunday;

- Together will produce strategies for conducting children's activities to the needs of each group;
- Will develop strategies for implementing information and promotion campaigns during the children's activities;
- Will motivate children to create a favorable atmosphere for the disadvantaged children's environment - orphans and children with physical disabilities;
- Will summarize, visualize and describe the results;
- Will build a strong working team;
- We will make team building activities for children and adults.

Requirements: We need people who enjoy to working with and for children.

Qualities that you should possess:

- o Creative thinking
- o Loving children
- o Knowledge of computer animation and web design skills
- o Interested in art and extreme sports
- o Management ability

Food: Volunteers will be given 80 euros per month to organize their food.
