

We are happy to share with you a NEW Season Camp, part of the “**NO MORE WAR**” SCI campaign that involves over 12 SCI branches over the world.

The camp project as you see starts at the end of this month and we hope to have at least a small group of volunteer. The partner and activities of this camp are unique and fully join the historical aims of SCI movement, as the main objectif of the No Dal Molin movement is to avoid the implementation of one of the biggest Nato military base in north Italy. The activities of the volunteers will be to support the organisation of the fourth edition of the Summer Festival. Please have a look at the full description of the camp, PLEASE spread the information of this new Camp inside your national networks, on your website, mailing lists ect !!
